

What people think about
The Digital Dynamo

OSMOND
MAGUIRE

IAN HILL

Ryan Matthew UK Ltd

"Astute with what my business needs"

<http://www.ryanmatthew.co.uk>

I have worked with Osmond over the past few years to develop the digital marketing strategy for Ryan Matthew Ltd, RM Direct UK Ltd and RM Fine Wines. Working with Oz has been an absolute pleasure. He has always given 100% and been incredibly astute with what my business needs, and how to achieve this in the most efficient, cost effective manner. Oz is patient and genuinely cares about providing the best possible service and meeting the business requirements.

Osmond is creative, innovative and forward thinking and has helped me to create several websites I am very proud of. He created and implemented a strong social media presence even before launching one of our products and has always paid the utmost attention to every detail of my business to ensure that the brand image is strong and that customer service is of the highest standard.

I could not have created Ryan Matthew without Osmond's help, and we have become great friends too along the way.

KARL LEHMANN

Amazon No.1 best selling Author
Lehmann Financial Management

Amazon №1

« Easy to talk to »

 <https://www.linkedin.com/in/karlelehmann>

Digital Marketing can be a bewildering world that can leave you feeling full of dread and fear. Osmond and the team can help you alleviate all those worries and keep your marketing running in tip top condition, thereby helping your business to function efficiently and without a loss of profits from systems being 'down'. Easy to talk to... worth calling or connecting with.

ROBERT HARPER

H.E.I Electrical Contractors Ltd

«professional and excellent service»

 <https://www.linkedin.com/in/robert-harper-a21b3917>

I would recommend Wizzard Technical Designs to anyone that requires any type of business marketing help and support. They give a professional and excellent service.

MICHAEL CRISP

Principal at AIMS Accountants for Business

«recommend him to my clients»

 <https://www.linkedin.com/in/michael-crisp-a729a331>

I needed a computer and I needed it fast. Osmond not only provided it but visited my premises, installed it and sorted out a connection problem in seconds in a way I would never have thought of, in a very short space of time. I would definitely use Osmond's company again and would not hesitate to recommend him to my clients.

JONATHAN ANDREW

Amazon No.1 best selling Author
Baswich Business Consultancy

«understands business requirements»

Amazon N^o1

 <https://www.linkedin.com/in/jonathanandrew>

WT Designs clearly understand business requirements and translate them into practical actions that make a difference. Focused on digital marketing techniques, to make sure that your business succeeds. If you haven't sorted out your digital strategy and marketing plans, I'd highly recommend you speak to Osmond and the team!

STUART WALTON

Conspicuous CBM Ltd

«a real godsend»

 <https://www.linkedin.com/in/stuartwalton>

Osmond has been a real godsend in sorting out my WordPress site with a whole host of useful hints, tips and tricks. If you have an existing word press website or are thinking of dipping your toe into this to build your online life around, then contact Osmond today. I am looking forward to more great help from Osmond and the Wizzard team for tears to come.

DIANE NORTALL

Dauben Group, Social Media Management
and Training

"Osmond was brilliant"

 <https://www.linkedin.com/in/diane-northall-4252944a>

Yesterday I met with Osmond as I was at my wits end working with Hoot Suite (Social Media Management Tool). Osmond was brilliant, calmly and clearly talking me through the finer points I needed to know giving me practical examples too. He even threw in some extra helpful hints and tips. IT an issue? Osmond's your man. He even has excellent facilities to train you in! Thanks Oz, you saved me heaps of time :)

JASON ROSE

Independent Financial Advisor

«I would recommend»

<http://yourmortgagesolutions.org/>

After a failed Microsoft update on my laptop wiped all my client data, we now trust our backup to Osmond and his team at Wizzard Technical Designs. With over 10 years of financial client data we required a secure place to store this and meet the demands of our annual audit. Our auditor was very impressed when we showed him our new backup and how secure it was, we gained a compliance mark for this. If you deal with client financial data in any way I would recommend you use this secure backup for our data.

ANNA WOOLLISCROFT

Market Avenue Limited

"it's a pleasure to talk online marketing and social"

 <https://www.linkedin.com/in/annawoolliscroft>

I recently met Osmond through a community referral marketing organisation. He has a clear passion for his work and is always striving to build better solutions for his customers across Digital Marketing - and online business strategies. Os is extremely easy going and it's a pleasure to talk 'online marketing' and 'social tools.' I'd recommend Os to anyone who is looking for a joined-up way to promote their online assets and business resources with a few extra ideas thrown in!

PAUL WOODCOCK

PJW Accounting Ltd

"Search Engine Optimisation to get me noticed"

 <https://www.linkedin.com/in/paul-woodcock-40b25321>

Ozz and his team have provided a great professional service and a website that suits my needs exactly in addition to dealing with the Search Engine Optimisation to get me noticed. Thanks guys - you're one of the best in the business.

TONY BURGESS

Havening Techniques Head of
UK & Europe

<<Thanks so much!>>

 <https://www.linkedin.com/in/tonyburgessaha>

Thanks so much for giving us wifi in our garden. It means what summer we do have will not be missed - We'll just move our home office out into the garden on warm days and continue what we were doing! You're a star!

TIM ROWLEY

Lockwiz Locksmith

"Video content marketing really worked!"

 <https://www.linkedin.com/in/tim-rowley-02b99658>

I totally doubted using video in any of my marketing materials until I got a call from a lady who had watched my video and booked me to do a job. Osmond is continually asking me to move forward with my marketing strategies and embrace new ideas, some of what I can be so reluctant to do, but the video content marketing really worked and Osmond did a great job for me!

Osmond has provided a great range of digital marketing services over the past few years for my company and certainly accelerated my online presence and local presence thanks to his strategies and persistence.

Digital Dynamo

OSMOND MAGUIRE

Osmond is a digital dynamo helping engineering and manufacturing companies grow and engage with all things digital. Highly passionate about using modern technology to get messages across, he engages with audiences on their level.

With his own successful business and a CV that would make any marketer weak at the knees, Osmond certainly knows a thing or two about the world of digital.

When not at his desk, Osmond can usually be found riding his motorbike or building an epic world on Minecraft with his son Harry.
